LÍNGUA INGLESA – QUESTÕES DE 17 A 24

Your Vacation on the Moon

- 1 Many experts believe that before the year 2020, the moon will be a popular tourist destination. Adventure travelers now might
2 climb Mount Everest or take a canoe trip to the Amazon; soon they will be paying large sums for the adventure of a lifetime in space.
3 After careful training, they will rocket out of Earth's orbit and spend a day at a fuel depot playing in zero gravity. Then they will
4 board the space ship for the two-day flight to the moon. Once they land and check in, guests will stare at Mother Earth in the black
5 vastness of the sky, take tours in special buses through the dusty lunar landscape, and experience the thrill of moving at one-sixth the
6 gravity of Earth. This means they will jump six times higher and feel six times lighter. The week will fly by. As they pack for the return
7 trip, many travelers will trade ten pounds of their baggage allowance for the moon rocks they've been collecting. After an
8 unforgettable final flight and a decontamination procedure, the space visitors will re-enter their lives on Earth, somehow changed.
